

# How do I improve scores?

- **Prepare Assignment (Daily Assignments)**
  - These will lock **Friday the week after assigned-** you have till then to improve score
  - What is evaluated? How well you are completing the daily tasks.
    - How to fix if Absent? Make up the seat time and work missed then submit to missed Daily Work.
    - How to fix if Present? Need to improve work habits moving forward (example: clean up after yourself better, work more focused, less distracted, faster, more efficiently, etc - depends on you). Can come in during Enrichment time to get caught up or do some extra cleaning)
- **Rehearse Assignments (Classwork: Notes, Planning, Worksheets, etc)**
  - These will lock the Friday before the **end of the quarter-** you have until then to improve score
  - What is evaluated? The *quality* of the work you are completing to prepare for Perform work.
    - Address feedback given and resubmit for regrading before assignment locks.
- **Perform Assignments (Exams, Final Projects, Critiques)**
  - These will lock the Friday before the **end of the quarter-** you have until then to improve score
  - What is evaluated? The mastery and improvement of skills and knowledge
    - Projects and Critiques: Address feedback given and resubmit for regrading before assignment locks.
    - Exams: make sure you understand why you got things correct/incorrect (test correction notes, meet with Ms. Schmit, review notes, etc) THEN you can retake as many times as you'd like but pointless if you don't do something to study more focused for it.
